Dear Dr Lavoie;

As you know, environmental sensitivity is a serious problem. We are slowly coming to grips with it, partly because our health care system has been slow to recognize it as a distinct health problem. I would like to know whether the Canadian Medical Association agrees with the philosophy espoused in the last paragraph of the enclosed excerpt from a report on chemical sensitivity to the New Jersey State Department of Health. I look forward to hearing the CMA's views on the diagnosing and treatment of environmental sensitivity.

Please let me know. I thank you. With best wishes,

Sincerely,

Charles Caccia

(Colin).
